“Incredibles 2”

The Parr family has to adjust to a new kind of life with Helen working a new job that helps to save the world and Bob taking care of the kids at home. Meanwhile, Jack-Jack wreaks havoc with his newfound super-powers that seem to be impossible to control.

Fox 8 by George Saunders

In this short fable, a fox teaches himself to speak "Yuman" by observing this strange race from afar and listening to bedtime stories. The anthropomorphic tale not only entertains, but touches on important environmental issues we face today.

Skyward by Brandon Sanderson

The first book in a brand new series by this bestselling author, Skyward follows the remains of a nearly-extinct human race as they fight to survive on a planet under constant attack by enemy aliens. Spensa, a teen girl with a dream to be a pilot, finds what's left of an ancient ship and attempts to fix it to achieve her goals. But what she doesn't realize is that this ship seems to have a soul.

Find it in the library at J/TEEN/SAN.

Villain by Michael Grant

In the second book in this spinoff series, it's been four years since the events of Gone, and the entire human race is in danger. An alien virus is spawning monsters that terrorize the world, with little hope of any society surviving. In the midst of all this chaos, a new villain appears, one with the power to control anyone only using the sound of his voice. No one is a match against him, except for a group of superheroes with extraordinary powers.

Find it in the library at J/TEEN/GRA.
