

## Tubular Tales Week 4— My Ocean Survival Story

You find yourself on a raft in the middle of the ocean. Luckily you have your journal and pencil with you. Keep track of your experience by writing each day's events.

Write a 5 day journal about your survival experience. How did you get there? What do you experience in the middle of the ocean? Do you encounter dangerous creatures, storms, heat?

Do you have food and water to survive your 5 days or do you need to catch food?

What items do you have with you? What happens on day 5?
